# JAPAN RAISES GRAVE WORLD ISSUE

## FLIERS COMPLETE WORLD JOURNEY

### DEMAND MADE TO HUNDREDS ARE KILLED SHIPS CIRCLE

#### STRIKE CLAUSE FROM PROTOCOL GLOBE IN 351 FLYING HOURS

**Delegation Declares That If Amendment Is Not Made, Japan Will Vote Against Proposed Protocol—Dramatic Incidents Feature Day.**

(By The Associated Press.)

GENEVA, Sept. 29.—Two members of the Japanese delegation declared today that if Japan did not obtain satisfaction of her demand for an amendment to the proposed protocol of arbitration and security, she probably would vote against the protocol when it was submitted to the assembly of the League of Nations.

If this happens, the protocol initiated by President Benes of Czechoslovakia and elaborated by the disarmament committee and its sub-committee will fall of adoption and consequently the international disarmament conference provided for in the protocol and planned for next summer will not be held.

The palace of the League of Nations was the scene of dramatic incidents today as the Japanese delegates assembled in an attempt to discover a solution of the difficulty created by Japan's demand for an amendment to the proposed protocol of arbitration and security.

The sub-committee to which the matter had been entrusted, after a brief meeting, adjourned until this afternoon before taking up the Japanese problem, because the leaders decided it would be more practical and less dangerous to find a satisfactory adjustment before the Japanese delegation, headed by Viscount Ishihara and Louis Loucheur, of the French delegation, Paul Hymans of Belgium and other members of the council.

Grave international problems are believed to have been raised through the Japanese demand as the League of Nations discussions for an amendment to the proposed protocol of arbitration and security.

Many of the delegates are of the opinion that the whole question of racial equality has been thrown definitely before the world by the Japanese amendment which demands that all states recognize the rights, and that Japan will continue to insist through the League of Nations for reversion of international law so that matters now deemed to belong exclusively to the internal jurisdiction of a state may be the subject of world wide concern, demanding treatment on the broad basis of equity.

The delegates from the British dominions, especially Australia and New Zealand are showing anxiety over the outcome of the Japanese amendment because they fear that the "racialization" problem may be forced before the council.

The Japanese amendment is to strike from the protocol the declaration that a country refusing an arbitral award of the world court shall be proclaimed an aggressor and that the prohibition against fighting out a case before the League of Nations when the world court has ruled that the issue involved is purely a subject within the domestic jurisdiction of the other party to the dispute and that by inference there is neither cause for conflict nor for arbitration proceedings.

The Japanese proposal has excited the apprehension of many delegates, who fear that Japan wants to maintain the right to go to war over matters touching on the sovereignty of a state without its being subject to the jurisdiction of the league. The Japanese object to this insinuation. They contend that a great injustice could be done to Japan by setting up a state's rights doctrine by the world court.

**DAVIS FUND SUBSCRIPTION**  
A further subscription of \$15 was reported to the Davis-for-president club today by Maitland Bustard, its treasurer this afternoon. The fund now stands at:  
Previously reported ..... \$208.50  
H. L. Boatwright ..... 15.00  
TOTAL ..... \$223.50

## BOND HEARING DELAYED UNTIL TOMORROW MORNING

The hearing on the bond injunction which was set for this morning was continued until tomorrow largely on account of the weather and the necessity of a trip by Judge Turrill to Danville to hear the arguments. A few days ago Judge Clement consented to come to Danville and hear the matter in vacation in order to relieve the necessity of going to Chatham. Attorneys and witnesses were in court this morning, but Judge Clement did not appear and a telephone message to the hearing was set for ten o'clock tomorrow.

R. H. Hort, well-known New York bond lawyer, and member of the firm, Reid, Daugherty and Hort, which represents the City of Danville in its capacity on all bond issues, arrived prior to their issuance, arrived in Danville this morning to assist City Attorney Aiken and Judge F. Walton Brown, who represents the city school board.

## TOWN TOPICS

Local dealers in wireless telephone equipment have been notified that the World Series baseball games will be broadcast when the crucial series begins next Saturday. Last year the games were broadcast but owing to interference which is always worse in daylight than by night relatively few radio fans heard them. Persons with equipment far from cities still stand a better chance of hearing the games, it is said than those in the busier centers where the use of electrical power industrial plants interferes with good reception. Last year a radio owner on Thomas Street North Danville enjoyed unusual reception of the games.

With active preparations for the terminating of the Virginia Methodist conference year and with ministers all over Virginia preparing to say farewells, the belief persists in Danville that no change will be made in the appointment of a presiding elder. Rev. Stonewall Jackson Battin is now completing his third year and there is a general desire that he should be returned for his fourth year. The name of Rev. Lloyd T. Williams, of Newport News, however has been put forward in a speculative way as a possible successor for Mr. Battin.

The Jewish New Year, a solemn event in the church calendar, is being observed in Danville by Orthodox congregations. The Reform and Orthodox churches, appropriate services to the day are being held both at the Aetz Chayim synagogue on Wilson street and at the Beth Sholem temple on Sutherland avenue.

The postoffice clock is in trouble again and has been for more than three weeks. The electric battery through which power is transmitted having become worn out and in need of new parts. These have been ordered from the manufacturer and postmaster F. D. Lumpkin expects to have the clock working again in a few days. The clock is a constant source of trouble. The postmaster reports he placed the clock tower and frequently rusts. The dial facing the north has been out of commission for more than a year, having been damaged by a mechanical failure. The connection between the hands of the clock and the mechanism had to be disconnected.

Morris Moore, who is at work purging the city books, has already made considerable headway and hopes to have the work completed within the next thirty days. Numerous discrepancies have already been come apparent. The books show a balance of a voter appears on the roll books five times, three times in the book for one city ward. It is for the purpose of rectifying these errors that the purge of the books has been ordered.

Despite the continuous rain during the past thirty-six hours, the government rain gauge showed only one inch and 8-10ths from eight o'clock today morning until one o'clock today. Rain incidental to the autumn equinox has been almost continuous for nearly three days.

## Wheeler to Make 3 Speeches Today

(By The Associated Press.)  
DENVER, Colo., Sept. 29.—In addition to delivering three campaign addresses here today, Senator Wheeler, independent vice presidential candidate, promised to take a part in terminating Colorado campaign strategy for the La Follette ticket. It was expected to announce an endorsement in behalf of the ticket. Senator Wheeler, Democrat, who is seeking a long term in the Senate as an opponent to Senator Phipps, Republican, and likewise he was called upon to present a selection between two prospective sets of La Follette-Wheeler independent electors, or to negotiate a fusion.

## BOND HEARING DELAYED UNTIL TOMORROW MORNING

The city has filed its answer to the complaint made by the plaintiffs, maintaining that the election of June 19th last when the \$350,000 school, \$50,000 sewer and \$100,000 street improvement bonds were issued, was valid. The effectiveness of the one-year clause is also denied and it is further contended that the only legal and proper list of qualified voters was used. Admission, however, is made that the judges of election violated the law technically by failing to complete the canvass on the night of the election and by leaving the box containing ballots in a closet in the west-end fire station. In the absence of any contest this is not considered by the city as vitiating the general result of the bond issue election.

Persons who are appearing as plaintiffs in the action are H. H. Ficklen, R. B. Graham, W. E. Morrison, W. R. Mitchell, B. W. Graves, H. T. Pearson, J. Cohen, B. H. Woolf, Mrs. Martha H. Cole, R. K. Mitchell, J. D. Ferguson, Jr., J. W. Booth, Davis and Miss Nannie F. Epperson.

## RAGLAND HOLDS WHEELS AT FAIR CAN BE RUN

In Letter to Police He Gives Construction of Recent Law

Pryor G. Ragland, commissioner of the revenue has sent to Police Sergeant John L. Edwards a letter in which he states the belief that wheels at the fair can be run and that he will therefore make no demand for license from them during the forthcoming annual event. Ragland analysts in his letter the law passed by the last General Assembly and sets forth his views on the subject generally.

Police Sergeant Edwards wrote to the commissioner some days ago for the purpose of securing an interpretation of the law and in order that the police department might not be unjustly criticised for taking action.

Mr. Ragland's letter is as follows: September 29, 1924.  
Mr. Jno. L. Edwards,  
Police Sergeant,  
Danville, Va.

In reply to your enquiry yesterday as to my interpretation of the Act of Assembly approved March 15, 1924, Section 4676 Code of Virginia and reads as follows:

"If any person keep or exhibit, for the purpose of gaming, any gaming table or bank of any name or description, or any table or bank used for gaming which has no name, wheel of fortune or slot machine, any pigeon-hole table or Jennie Lynn table, whether the game or table be played with cards, dice or otherwise, or be a partner or concerned in the interest in the keeping or exhibiting such table or bank, he shall be confined in jail not less than two nor more than twelve months, and fined not less than one hundred nor more than one thousand dollars. Any such table, bank or wheel of fortune, and all the money, stakes or exhibits to allure persons to bet at such table, bank or wheel, may be seized by the sheriff or any other officer of justice, and the money so seized shall be forfeited, one-half to the person making the seizure, and the other half to the commonwealth, and the table, bank, machine or wheel shall be burned."

It is quite clear that the language of this act and the purpose of the legislature was to outlaw these kind devices and if this act stood wheels they could under no circumstances be licensed but this act must be read in conjunction with other acts approved subsequent to the date of approval of the act quoted above.

The act of March 15, 1924 approved March 29, 1924 in laying the license tax on circuses, and carnivals carries this clause:

"On each game or wheel of chance where the prize consists of fruit, candy, toys or other novelties, operated or exhibited on the same or contiguous lots with a carnival or other show taxable hereunder, whether owned or operated by the owner of the show or by another show or not, the tax shall be fifty dollars per day, in addition to the license tax hereinbefore prescribed."

This clause modifies the act of March 15, 1924 in so far as those devices are operated by circuses and carnivals, and as Commissioner of the Revenue I should demand this license.

In the statute last cited and touching Agricultural Fairs, I quote the following extract:

"Nor shall any license be required of any Agricultural Fair or the show exhibited with the grounds of such fair during the period of such fair weather an admission be charged or not."

This language you will see is not as comprehensive as it might be, but construing the language in the light of the history of the passage of the law I am of the opinion that it was the intention of the legislature to give these fairs a blanket exemption from the license of all kind and so interpreting the law I shall make no demand for any State Licenses, for any of the Fair's activities. In conclusion, I think the devices operated by circuses and carnivals are permissible and licensable. At all other places they are neither permissible nor licensable.

You understand, of course that the functions of my office relate only to matters of taxation. As to your duties with regard to police administration, your adviser is the Commonwealth's Attorney.

I remember also what you said about "avoiding unjust criticism." My own opinion is that your devotion to your duty is well understood and appreciated in all thinking citizens and the destructive and treacherous criticism of irresponsible people should not be taken into account in laying out your course of action.

Yours very truly,  
P. G. RAGLAND,  
Commissioner of the Revenue.

## A "FIGHTING BOB"

Young women have organized the "Fighting Bobs" to help the Progressives campaign for Senator La Follette for president. Pictured here is Cecelia M. Blatt, who was one of many Fighting Bobs at La Follette's Madison Square Garden meeting to help raise campaign funds.

## WICKER TO BE SPEAKER HERE ARMISTICE DAY

Past Department Commander Accepts Invitation For November 11

John J. Wicker, past commander of the Virginia Department "American Legion" has been selected as speaker in Danville on November 11th next, Armistice Day. He will be accompanied by the Danville Post in preparing for the annual celebration.

Mr. Wicker is a practicing attorney in Richmond and presided at the last annual convention of the Virginia Department held in this city. He is a forceful speaker and Danville legionnaires are confident that his address will be of a high standard. Mr. Wicker's father is a Baptist minister who several years ago conducted a revival in Danville.

American Legion committees are now engaged in preparing a program for the local celebration these including a sham battle during the afternoon and the Danville Military Institute cadets will take a part in torchlight procession in the evening.

The tabernacle where the parade will speak, and dance at night for the ex-servicemen.

## Houchins to Be Given a Hearing

(Special to The Bee.)  
LEAKSVILLE, N. C., Sept. 29.—Lunday Houchins who was driving an automobile several days ago which ran over and killed Willie Bateman, aged four years, has been required to give a bail bond of \$5,000 for his appearance in court this week for his appearance in court this week.

The little boy was crushed to death by one of the wheels of the machine which passed over his chest.

## MECCA IS CAPTURED BY WAHIBIS, REPORTS SAY

(By The Associated Press.)  
LONDON, Sept. 29.—While the Moslem world is anxiously awaiting confirmation of the report that Mecca has been captured by the Wahabis, fanatical Mohammedan puritan reformers, who held the Holy City for a few years at the beginning of the nineteenth century, the outside world is reaching the outside world by way of rumors suggesting that the report is likely to be true.

King Hussein, who during the great war made Mecca the capital of his new kingdom of the Hedjaz, is reported to be retreating with his scanty forces of Hashimites to Jeddah, the port of Mecca.

According to this correspondent, Hussein's allies have failed to attempt to recapture Taif, which the Wahabis seized recently. Possession of Taif is of importance to Mecca because it is from there that the capital receives most of its supplies.

## CHINESE ARMIES CLASH IN WORST BATTLE OF WAR

Stiff Fighting Raging On Six Mile Front—Numerous Relief Stations Filled With Wounded—Both Sides Drenching Lines With Shrapnel.

(By The Associated Press.)  
SHANGHAI, Sept. 29.—Hundreds of Chinese soldiers were killed and many others wounded this morning on a six mile front from Nansiang to Malu when armies of rival military governors fighting for possession of Shanghai continued hostilities with impetus intensity.

According to a witness who returned this afternoon after traversing the sector from Nansiang to Malu west of Shanghai, both sides were drenching the lines with shrapnel.

Numerous relief stations behind the six mile Nansiang front were filled with wounded white scores of others were arriving on stretchers.

Gravid has been left where they fell, according to the witnesses and this practice has resulted in a carnage or extending over the whole battle area.

The offensive, which has resulted in continuous firing since it opened on Saturday morning has enabled the Chekiang forces to drive the Kiangsi troops back six miles according to General Hsia Chien, commander of the Chekiang forces of the center of the activity.

## Von Berg Case to Be Heard During Christmas Holiday

(Special to The Bee.)  
REIDSVILLE, N. C., Sept. 29.—It was disclosed in official circles this morning that no effort will be made to bring back Henry von Berg to North Carolina for a preliminary hearing on the charged accidentally causing the death of Jeff Montgomery, colored, until shortly before January when the next session of the superior Court is convened.

A charged bail bond of \$5,000 was furnished several days ago by the young man's step-father, T. J. Penn and it has been virtually decided not to interrupt immediately his studies at the Military Academy in Indiana.

The plan is to hold the case in abeyance until the Christmas holidays when von Berg will return for the vacation and will remain in North Carolina until the case has been disposed of. He will be given a preliminary hearing a day or two before the county grand jury meets and if there is sufficient evidence against him he will be held for grand jury action he being held for trial before a jury.

Several witnesses have been summoned.

## Monthly Police Report Is Issued

The monthly report of Chief of Police James Bell, compiled this morning by Police Secretary James Elliott, shows that during the month ending September 27th, 231 arrests were made in the city of Danville. Of this number, 155 were for drunkenness, 15 for assault and battery, 15 for larceny, 15 for vagrancy, 15 for disorderly conduct, 15 for breach of peace, 15 for obstruction of justice, 15 for perjury, 15 for conspiracy, 15 for subornation of perjury, 15 for false swearing, 15 for false statement, 15 for false information, 15 for false accusation, 15 for false complaint, 15 for false report, 15 for false statement, 15 for false information, 15 for false accusation, 15 for false complaint, 15 for false report.

The amount of fines and costs imposed totaled \$18,376.00, of which \$1,162.45 were collected and turned over to the city treasurer, the remainder being paid in default of payment of fines imposed. As is usually the case, most of the arrests made were for drunkenness, which being 36, which there were 23, assault coming with twenty.

## MECCA IS CAPTURED BY WAHIBIS, REPORTS SAY

The tribes between Mecca and Taif are stated to have refused to help Hussein, whose safety, according to current reports is in danger.

Even if Mecca is not yet actually in the hands of the Wahabis they appear to be seriously menacing it. If they capture and hold the city, it is supposed that the famous pilgrimages will cease as the Wahabis vehemently opposed and frequently try to prevent the pilgrimages, regarding them as enemies to Islam.

The Chronicle's correspondent says that the rumors of the fall of Mecca created a sensation in Cairo and are causing a stir throughout Islam.

Reuters' Cairo correspondent reports that the position of the city is believed to be critical with the civilian evacuation having already started and the seat of government being transferred to Jeddah. A battle outside the walls of Mecca is thought to be imminent.

## RETIREES

Nearly 100 years of service in the navy by members of one family ended when Rear Admiral Edward Simpson, U. S. N., retired on reaching the age limit. Admiral Simpson was born at the naval academy in Annapolis while his father was an instructor there. He commanded the forward turret of Admiral Schley's flagship Brooklyn in the battle of Santiago Bay in the Spanish-American War.

## CIRCUS CALLED OFF ON ACCOUNT MUDDY GROUNDS

Heavy Downpour of Rain All Morning Makes It Impossible for Showing

The two exhibitions of Sells-Floto circus scheduled for this afternoon and tonight here, were officially called off early this afternoon, owing to the inclement weather conditions. A continuous downpour of rain throughout the morning turned the grounds into a mire in some places nearly a foot deep. Although conditions beneath the main tent were fairly favorable, the condition of the grounds leading to the grounds was terrible, and for this reason it was decided not to give the exhibitions here.

At two o'clock this afternoon the large force of workers were busy engaged taking down the big tents and paraphernalia and loading them on the train, which will pull out for Burlington, N. C. tomorrow morning.

Despite the rainfall at that hour, a large number of people were on the grounds, and some of them persons who had come to learn just what the big show had decided on in view of the adverse weather.

## DAVIS GETTING READY FOR LAST BIG OFFENSIVE

(By The Associated Press.)  
LOCUST VALLEY, N. Y., Sept. 29.—John W. Davis began preparations here today for the last big offensive in his campaign.

The offensive will cover three general fields, the middle-west, the east and several of the border states. It will be inaugurated next Wednesday in Maryland with addresses at Frederick and Baltimore and will end with a rally in New York City on the night of November 1.

Returning to New York Thursday from Baltimore, Mr. Davis will speak that night at Madison Square Garden with Governor Smith. Then he will make a one night stand in New Jersey and another in Rhode Island before starting westward through up New York state.

In the last month of the campaign the democratic presidential candidate will deliver a score of addresses and will make a greater number of platform speeches on his journey west.

## WEATHER FORECAST

(By The Associated Press.)  
WASHINGTON, Sept. 29.—Virginia: Tuesday, fair and cooler. North Carolina: Probably showers tonight and Tuesday, followed by fair Tuesday in west portion, cooler in central and west portions tonight, cooler Tuesday.

## U. S. Army Birdmen Write New Page in History—Great Throng On Hand When Landed at Seattle—Four Other Records Established.

(By The Associated Press.)  
SEATTLE, Wash., Sept. 29.—252 United States army aviators who completed a flight around the world here yesterday, a crew prepared today to receive the welcome which has been arranged by an appreciative citizenry.

"The elapsed time of the flight was 175 days; total mileage, start to finish, 27,534; days actually in air, 26; actual flying time 341 hours, 11 minutes; average speed 76.36 miles per hour."

At a public luncheon today, the fliers and their mechanics were the make talks describing their world famous trip.

## U. S. Army Birdmen Write New Page in History—Great Throng On Hand When Landed at Seattle—Four Other Records Established.

(By The Associated Press.)  
SEATTLE, Wash., Sept. 29.—252 United States army aviators who completed a flight around the world here yesterday, a crew prepared today to receive the welcome which has been arranged by an appreciative citizenry.

"The elapsed time of the flight was 175 days; total mileage, start to finish, 27,534; days actually in air, 26; actual flying time 341 hours, 11 minutes; average speed 76.36 miles per hour."

At a public luncheon today, the fliers and their mechanics were the make talks describing their world famous trip.

In addition to the luncheon, the aviators planned to participate in the dedication of a monument at Sand Point commemorative of the globe-by-air circumnavigation of the globe-by-air.

The lieutenants were scheduled to speak briefly there.

When Lieut. Smith finished aboard a private yacht yesterday, "Four of the aviators were scheduled to participate in a formal ceremony and reception here, expressed gratitude that 'all the worries of taking care of their machines were over' and that the only thing left which was their sleep, they would avoid the appearance of himself and his comrades before the public."

A telegram received last night from President Coolidge informed the fliers that the president intended, on the occasion of the Congress, to "recommend that authority be granted to reward the squadron by promotion and other appropriate action in order that your distinguished services may have practical recognition from your country."

At present it is not known how long the aviators are to remain in Seattle or whether the aviators will be taken back by the original pilots to the cities they were christened after.

Seattle's homage to the epoch-making aviators was among the best of any city in the route in the United States. Ten thousand witnessed the arrival of the three planes; five thousand more cheered as they stepped ashore before automobiles and thousands of others sounded automobile horns and sent up lusty greetings, as the aviators progressed through the city, and as they landed at the airport, the automobile lined streets and thousands of persons listened to short talks from them.

Four world's records were shattered today when two United States Army planes completed a 27,000-mile globe-circling flight here at Sand Point, Seattle, before their flight.

The most westerly of the planes, the "Albatross," led the way through Canadian blizzards, treacherous Alaskan gales, the torrid heat of India, heavy English fogs and icebergs-chilled climate of Iceland and Greenland.

The first world's record was shattered when the Americans crossed the Pacific Ocean from Attu Island, the most westerly of the Aleutians, to Kure Island, Japan. This 980-mile stretch was the longest jump of the entire trip. It was made in 12 hours and five minutes of flying.

The second record was the longest of the Aviators' Islands during the blizzard on route.

America's second time came when the fliers crossed a 500-mile stretch over the China Sea from Kagoshima, Japan, to Shanghai, China. This was the first time the China Sea had been crossed by air.

The third honor was the completion of the around-the-world flight, a feat never before achieved by man in heavier-than-air machines.

Lastly, the intrepid Magellans of the air theoretically set a new world record for traveling around the globe. The entire trip was made in 301 hours of actual flying. Although the expedition was on the trip nearly 150 days after leaving Seattle, when the fliers reached Constantinople, they had covered 16,530 miles in 225 hours of flying, or an average of 76.36 miles an hour.

If the aviators were equipped with machines that could stand 24 hours a day flying for the world trip at the average of 76.36 miles an hour they would have finished the journey in approximately 15 days and six hours.

By encircling the globe in the flying time of a little over 15 days, the United States Army fliers shattered the notable feat of John H. Mearns, who, in 1913, went around the world by ship, train and other modes of travel in 33 days, 21 hours, 35 minutes.

Fast trips around the globe include one made by Nellie Bly, a reporter, in 1889, shortly after the Jules Verne published his famous book, "Around the World in Eighty Days." She did it in 72 days, 6 hours, 11 minutes. In 1903, Henry Frederick cut this time to 34 days, 7 hours, 2 minutes. In 1922, a record was broken in 1911 by a German seaman, who encircled the earth in 29 days, 19 hours, 42 minutes, 38 seconds.

The making of the plans for the air-trail-blaze occupied more time on the part of army authorities than the men spent on the journey. Everything was arranged to minimize the chance of failure. The 27,000-mile trail was divided into 10 divisions, each division months in advance of the scheduled starting date, to prepare maps, obtain weather data, and to lay supply depots and stations at important points en route. Supplies were (Continued on Page Three)

# PUBLIC DANCING PROHIBITED BY KENTUCKY TOWN

## Had Just Stopped Joy Riding After 10 o'Clock and City Is Blue Sure Enough

BY A. D. MANNING

HOPKINSVILLE, Ky., Sept. 29.—The blue grass is not the only thing that's blue in Kentucky these days. The sheiks and shebas are all blue—and if there is anything in their argument—the law in these parts is taking on more and more of a saffron hue.

The young folks who started a couple of weeks ago when the city fathers of Hopkinsville established a law that prohibited dancing after 10 o'clock and joy riding after 10 p. m. and 3 a. m. That naturally was a terrible blow to the auto-racers.

Now along come the city fathers of Hopkinsville with another bill at personal liberty. Henceforth in the confines of Hopkinsville it is illegal to conduct a public dance. And under the law practically any dance where two or three are gathered together is "public."

Have a look at these definitions set forth by the Hopkinsville city council:

"Any dance is public to which no invitations are issued." Reads one section. That provision, if stood alone, might be gotten around by enterprising purveyors of public entertainment by the simple issuance of "invitations" to all regular patrons. But—

"Where attendants contribute in any way to the expenses of holding a dance, said dance comes under the provisions of this ordinance which prohibits—again those horrid—public dances."

"Well we can still use the old phonograph in our homes," said one society bud today.

"Yes—maybe," said her vis-a-vis. "But it would be a good idea to make sure that the phonograph is not being paid for on the pay-as-you-go plan. That would eliminate the hottest sure, and would put all her

## Sore, Bleeding Gums Stopped In 12 Hours

### Creosene, A Pleasant Liquid That Accomplishes at Home All the Good Benefits of Treatment in Dental Chair Without the Pain and Expense.

Sore, bleeding gums indicate the beginning of pyorrhea. If neglected the infection spreads from the gum tissue to the root sockets—the foundation on which your teeth depend. Then the teeth fall out or must be pulled. Through a new discovery, Creosene, a pleasant penetrating liquid, medicated with gum healing and germ destroying ingredients used by the dental profession carries the medication direct to the roots of the teeth, relieving pain, tightening loose teeth, healing pus pockets, destroying decayed teeth and killing the germ that leads to pyorrhea. The medicines used in Creosene are not new, but are well known and used by the entire dental profession. The new discovery is the method of penetration which carries these gum-healing germ-destroying medicines direct to the roots of the teeth and into every book, corner and crevice in and between the teeth, thereby accomplishing at home, in a pleasant way, all the good benefits of a treatment in the dental chair, without the pain and expense. If your gums are sore and bleed easily, or your teeth sensitive or loose, this is your warning of pyorrhea ahead. Do not wait one minute, but go immediately to any good drug store and purchase a dollar bottle of Creosene with the positive guarantee of relief in twelve hours or money refunded Creosene Co., Atlanta, Ga.—adv.

# Boils Pimples and Blackheads

Why worry and fret—wish and hope? Why be jealous of those with clear, soft skin? It is within reach of all.

A RICH, RUDDY, wholesome complexion is possible. It is not something that is just beyond your reach. Neither is it something that requires years and years of toil to acquire.

But you must have a foundation for a clear and beautiful complexion. You can be sure of this: Nature has no substitute for red-blood-cells. So-called skin disorders—pimples—blackheads—boils and kindred disorders—are nothing less than billboards announcing that the blood is in disorder. Condition. More red-blood-cells! That is what you need when you see pimples starting at you in the mirror. Blackheaded pimples are worse! Boils are worse yet! Eczema is not to be trifled with! You can try everything under the sun—you'll find only one answer. More cell-power in your blood. The amazing results produced by an increase in red-blood-cells, is one of the

## S.S.S. The World's Best Blood Medicine

# LIVE 250 YEARS! SHE TELLS YOU HOW

By HAROLD B. WATSON

BOSTON, Sept. 29.—"I'm not going to die."

"I'm not going to die."

Sing that to yourself day and night until you are convinced of the idea and you will have done what Ponce de Leon failed to do.

For you will have found the secret of youth!

And you will live to be 250 years old!

In effect, at least, that is the message of Dr. Alice Jewel, president of the Alice Jewel International Society of Applied Psychology. Dr. Jewel has just arrived in Boston from Europe where she claims to have confirmed her ideas about longevity.

Looking to be no more than 30, she offers herself as proof of her powers of rejuvenation, for she asserts that her birth certificate is 69 years old.

"I was born in Louisiana in 1864," she confesses. But it is hard to believe. She has the fair skin that cosmetic firms promise for 35c. She is slim, she is as spry as a flapper, she is as chic in dress as the woman of Paris, her thick brown hair is bobbed and girlish.

How does she do it?

Not by diet.

Not by glands.

Not by daily dozens.

In fact by nothing more than some simple little duty, like the one above, sing intently to herself.

"We can live to be 250 years old if we want to," she says. "Dying any younger than that is pure carelessness. Ignorance."

"Old age is a curable disease, so let us cure it. At 70 we are mere children. I am 60 and I feel as young as ever and I expect to live 150 years more."

Dr. Jewel explains that her secret is all in the mind. She blames our sub-conscious mind for our dying under a century or two, and asserts that once we have conquered the impression in our sub-conscious about when to die we will have discovered the fountain of youth.

"My method of rejuvenation," Dr. Jewel says, "comes from within. It is our minds which govern our life and bring about our death. We have

DR. ALICE JEWEL

the idea, in our sub-conscious mind, that we are going to die. So we die.

### HUNT'S DAILY LETTER

By HARRY B. HUNT

## CO-OPS LOSE ON KINSTON DECISION

KINSTON, Sept. 27.—A temporary injunction preventing sale of a quantity of tobacco on the open market by L. Harvey and Son company, Dixon Bros. and O. Pollock, Mrs. M. J. Pollock and others, Kinston and Trenton merchants and Jones county growers, was dissolved here today by Judge Oliver H. Allen. The Co-operative Growers' association was plaintiff. Judge Allen criticized the association, saying it appeared to seek to "hold up and cripple" rather than to be after money, and suggested that the tobacco be sold at once.

An original action was "against the growers. When the tobacco merchants stepped in and started to market the tobacco as lien holders another order was sought by the association and granted by Judge Allen the first of this week. He did not know of all the details or he would not have issued the injunction, he said, holding that the merchants should have been included in the original action. A permanent order would tie up money due the time men and keep the growers from getting assistance from merchants he stated. Tobaccoists said the tobacco had been damaged from being withheld from market.

Mrs. P. J. Sarlton and her niece, Miss Elizabeth England, of Richmond, are spending the week-end with Mrs. Carlton's mother, Mrs. W. A. Hines, Stonewall apartments.

Will the radio bring out the stay at home vote, or any considerable part of it?

If it does, considering that the stay at home vote last time was a little more than 50 per cent of the total eligible vote and if it shows a decided partiality for any particular candidate—why, then the stay at home vote can do pretty much anything it wants to.

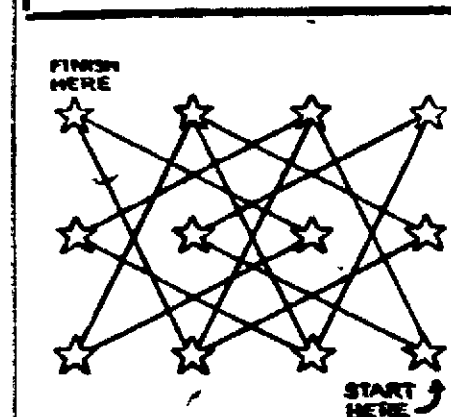

And the stay at home vote, like the radio, practically is an unknown quantity.

Taken in connection with the fact that a three-cornered fight is confusing, anyway, all this makes the situation very disturbing to the politicians.

Politicians don't mean exactly what they say when they declaim against the stay at home vote. A politician is just as much in earnest as he pretends to be when discussing his own party's stay at home vote, but mighty few politicians lose sleep over opposition stay at home vote.

In fact, among politicians of all

## DAILY PUZZLE

The drawing contains twelve stars, joined together by a number of straight lines. The problem is to start at the star in the lower right corner, and trace a course that will pass through every star—once only—and terminate at the star in the upper left corner.

Can you trace a course that will fulfill these requirements?

Yesterday's answer:

Though SEATED secure and SEDATE in his case.

The parrot, when TEASED, will fly into a rage.

The words seated, sedate, and teased are all spelled with the same six letters.

## SUBS STAGE STAR FOR STEALING LOVE OF HER HUSBAND

MINEOLA, L. I., Sept. 27.—Wilda Bennett, star of the Broadway success, "Lady in Ermine," appeared in a drama of real life today when she was served in a suit for \$100,000 charging her with stealing another woman's husband.

Mrs. Frey, of Forest Mills, L. I., who was Katherine McIntyre, daughter of a widely known Kentucky racing man, complains in a suit filed here that through the actress' machinations her husband deserted her and brought suit in Louisville for a divorce.

Much more spectacular are Mrs. Frey's charges that Miss Bennett has appeared in public and private as

Mrs. Frey, Benjamin Greave, process server, handed Miss Bennett official notice of the action at her beautiful home on the Elm Point Road, Great Neck today.

Elvin M. Edwards of Mineola, counsel for Mrs. Frey, said the husband, Charles C. Frey, 35, met Miss Bennett who was educated in a Washington convent, at a race track in July, 1923, and was seen with her at the New Orleans Derby later.

Newspaper clippings form an important phase of the complaint. Among those submitted, one is a reproduced photograph of a man said to be Frey and of Miss Bennett, entitled "Mr. and Mrs. Charles C. Frey" and in parenthesis (Wilda Bennett).

Two actions are on file in the Louisville courts. In one Frey asks for divorce charging desertion; in the other Mrs. Frey counters, charging misconduct with a woman not named.

The alienation suit will be tried here in December.

### SANITARY CONDITIONS BETTER

RICHMOND, Va., Sept. 27.—Basic sanitary conditions in hotels of the state have improved greatly since last year, it was declared here today from the state division of dairy and food products inspection, which has recently conducted a survey of the hotels. Four hundred and seventeen hotels in Virginia were inspected, according to the report. Six of them were given 100 per cent. rating.

The price of gas is down a little, but this won't reduce the number of the cars parked along country lanes.

# POLITICAL PATH OF ROOSEVELT IS NOT EASY ONE

Has Been Pictured in Boots Far Too Big For Him—Has Hard Fight Ahead

By ROBERT T. SMALL  
(Copyright, 1924, by The Bee)  
NEW YORK, Sept. 29.—"De-lighted!" Once more the famous Roosevelt grin, once more the famous Roosevelt ejaculation are to be abroad upon the hustings seeking the ballots of the people.

Far-famed Theodore Hill, at Oyster Bay, is to resound with the halloo of the populace and the politicians.

Young "T. R." has decided to be notified of his nomination as governor of the state of New York at the old family home, amid the scenes followed by his distinguished father and not far from where that father sleeps the last earthly sleep.

This in itself is a token of the coming campaign. Young "T. R." has dreamed dreams for him. It has never happened in American history, but in any event there is no constitution of inhibition as yet to restrain the son of a president from eventually reaching the White House.

Yet the young colossus ("Ted" his father always called him) has a political path ahead of him as the rider ever negotiated. Already he has the task of being himself, his political evidence, of trying to wear the mantle which once fitted the broad shoulders of his father; already he has been pictured in boots far too big for him, already he has been shown in a vain endeavor to lift the bit in the reins of the ground. There is a struggle on every hand that his moves will be watched with keen eyes and that no matter how natural and how much to his father, the better known man, some of his father, known man, those to say that these are merely assumed for the purposes of politics.

Young Roosevelt has inherited much from his father. His same. It is speech is much the same. It is a main asset or a liability. Young "T. R." has his father's habit of talking through his teeth. It was this habit that made the Roosevelt son so much the Roosevelt note in his voice also has the Roosevelt note in his voice which was of so much service to the elder Roosevelt in making a point and drawing a laugh from his hearers.

Young Roosevelt has not the rugged features of his father, but the contour of the face is virtually the same and as the one time president developed into sturdier form, the son, Young "T. R." is like the son. Young "T. R." is like the son, Young "T. R." is like the son, Young "T. R." is like the son.

Young Roosevelt has not the rugged features of his father, but the contour of the face is virtually the same and as the one time president developed into sturdier form, the son, Young "T. R." is like the son. Young "T. R." is like the son, Young "T. R." is like the son.

## Ships Circle Globe In 351 Flying Hours

(Continued From Page 1)

then sent to plagues chosen by the advance officers.

Special Douglas air cruisers were built in a California factory, each driven by a 400-horsepower Liberty motor and having a cruising radius, with auxiliary gasoline tanks, of 1,500 to 2,000 miles. They were the only planes of their type in the world.

Spare engines and parts were scattered along the route and everything was in readiness when the aviators left Santa Monica, Calif., March 17 for Seattle, where the planes were outfit with pontoons and the start of the flight made April 5.

During the flight the Americans either skirted or flew over 20 countries and provinces. Every contingency had to be expected. Of necessity the aviators had to be almost supermen, being possessed of nerves of steel, dauntless courage and exceptional physique. The climate ranged from the frigid Arctic weather along the Aleutian Islands of the North Pacific late in March to near tropical conditions in June while traversing India. Every ounce of weight had to be conserved to make carrying capacity for fuel. When the airmen reached cold districts they purchased heavy clothes. These were thrown away when warmer weather was encountered.

Four planes left Seattle for the flight, commanded by Major Frederic L. Martin. The planes were of the misnamed "Seattle" in lighting at Prince Rupert, B. C., the first night out. Between Sitka and Cordova, Alaska, Major Martin narrowly escaped colliding with the mountain peaks of the Alaska Peninsula. He was forced down by engine trouble. His companions reached Chignik and he was found the next day at Cape Ignak, 30 miles east of Chignik.

After the flight the planes in Chignik to Dutch Harbor, in the Aleutian Islands without Major Martin. Storms prevented him from reaching Kanak for several days. Stormy weather reached but Martin endeavored to join his companions April 30th. Nothing was heard of him until ten days later when it was learned that the Seattle had hit a mountain on the Alaska Peninsula that that he would be out of the flight.

Major Martin and his mechanic, Staff Sergeant Alva L. Harvey, escaped unhurt, although they suffered hardships in extreme cold and fog while attempting to reach a salmon cannery at Port Moller.

Lieutenant Lowell H. Smith, pilot of the plane Chicago and commander of the expedition after Major Martin's accident, had considerable engine trouble, crossing the China Sea to Shanghai. Smith's companions were forced to wait a day in China while he fixed his engine at Kagoishi, the last point touched by the aviators in Japan. At Calcutta, he broke down at that point until August 3rd, the expedition suffered no mishaps.

On that day, however, Lieutenant Smith and Lieutenant Wade, pilot of the plane Boston, attempted to rejoin the plane Chicago. The plane Boston, after crossing the China Sea to Shanghai, Smith's companions were forced to wait a day in China while he fixed his engine at Kagoishi, the last point touched by the aviators in Japan. At Calcutta, he broke down at that point until August 3rd, the expedition suffered no mishaps.

## Most Recent Addition to Destroyer Family

Uncle Sam was presented a bill of considerably over eight million dollars for this new destroyer tender, the U. S. S. Whitney, that has just been built and commissioned at the Charlestown Navy Yard in Boston. However, it's the most powerful and the speediest one afloat.

went down the St. Lawrence River to Quebec and Montreal. The stages from there included Boston, Mitchell Field on Long Island, Washington, Dayton, Chicago, Omaha, North Platte, Cheyenne, Salt Lake City, Sacramento, Eugene, Ore., and Sand Point Field on Lake Washington, near Seattle.

Lieutenant Wade, flying a plane sent from the United States for him and named the Boston II, rejoined the flight at Pictou Harbor, Nova Scotia.

Lieutenant Smith said in England: "The time is near when anybody will be able to make an 8,000 or 10,000-mile air trip without changing planes. As commercial aviation develops it will be merely a case of developing the trip is completed, of taking out the engines and slipping in new ones. Pilots will be changed and the journey continued."

Four attempts to fly around the earth were made this summer. The first was made by a two-engine plane from Lisbon to Massau, wrecking one plane and replacing it and landing the other in a cemetery whence they were taken to the engine and slipping in new ones. Pilots will be changed and the journey continued."

Major A. Stuart MacLaren and two other British soldiers left Calcutta, England, March 25, in one plane, but a new machine into the ice at Akjah, India, and wrecked the plane by hitting a heavy sea when trying to avoid a small island in lighting near Nikolski Bay, August 3.

Major Pedro Zanni, of Argentina started at Amsterdam, and a meeting here today of representatives of 25 associations, called together by J. H. Meek, director of the division of markets of the State Department of Agriculture, and the Virginia State Chamber of Commerce. It was planned, of course, in connection with the celebration of Virginia apple week throughout the State.

The conference was opened by Mayor J. Fulmer Bright, of Richmond, who pledged the support of his city government toward the movement. Mr. Meek then proposed the formation of the "use Virginia agricultural products" committee. He declared that with more than 500,000 barrels of Virginia apples this year bearing the inspection stamp of growers, State or federal inspectors, the State growers feel they are in position to furnish the people of the Old Dominion with a product which will rank in every way with that of other States. Hereafter, it was pointed out, a large part of the Virginia crop had not borne the inspection stamps and many who had been assigned this as a reason for giving the preference to west coast apples. The committee would undertake active campaigns throughout the State, with the assistance of local trade bodies and civic and school officials, to interest the people in the home-grown product.

## BRITISH SHIP SINKS AT SEA, RADIO REPORTS

Crew Was Taken Off By Tanker, Which Answered Distress Calls

(By The Associated Press.)  
SAVANNAH, Ga., Sept. 29.—The British freight steamer Santa Theresa, bound from a Cuban port with sugar, sank last night or early this morning, ninety-five miles southeast of Savannah, according to radio advice received here from the American tanker I.C. White, which has taken off all the crew of the British vessel. The tanker is proceeding to a port not given in radio advice but the vessel is not coming to Savannah, it is known.

Distress signals were sent out yesterday morning about 10 o'clock by the Santa Theresa stating it had sprung a leak in the engine room. The local U. S. Radio station, the U. S. Coast guard cutter Yamacraw and other local stations caught the messages. The leak is believed to have been in the main injection lines which supplies ocean water to the condensers.

The position of the distressed vessel was given by it as latitude 22 north longitude 79:50. The messages broadcast were picked up also by the I. C. White which was within a short distance of the Santa Theresa. The tanker proceeded to the assistance of the freighter. The Yamacraw sailed about noon yesterday. Radio advice continued to come in from the tanker stating preparations were being made to abandon the sugar ship as it was too foundered and it was advisable to get the crew off at once. In the event the freighter should take a sudden plunge. Then came word a little later that the crew had been removed to the tanker.

On Saturday the president will deliver an address dedicating the monument to the first division troops of the A. E. F. in which he is expected to discuss the foreign relations policy of the administration as well as outlining his views on military and naval affairs.

On the same day Mr. Coolidge has a "tentative" engagement to throw out the first ball at the opening of the world series here, to be played at the Washington stadium. The American League pennant. And earlier in the week, on Wednesday, he intends to participate in the official welcoming home planned for the base ball team on its arrival from Boston.

STORM WARNING ISSUED  
WASHINGTON, Sept. 29.—The weather bureau issued the following notice:  
"Advisory 10 a. m., storm warnings ordered Delaware breakwater to Nantuxet. Disturbance developing over Virginia will cause strong easterly winds and gales with rain and thick weather this afternoon and tonight."

## Gives Points On Proper Way to Fatten Baby Beef

(By The Associated Press.)

RICHMOND, Va., Sept. 29.—The Virginia livestock according to a bulletin of the United States Department of Agriculture made public here today. "The fattening of this class of beef requires more skill than is necessary in the production of animals marketed at more mature ages, on account of their tendency to grow rather than to fatten," declares the bulletin.

"This class of beef," continued the bulletin, "must be supplied by beefs from 12 to 20 months old and during recent years livestock markets have experienced a constantly increasing demand for well-fattened beef animals weighing from 800 to 1200 pounds."

"Unless the cows in the herd are exceptional milkers, calves intended for fat yearlings should be started on corn, kafir, milo, barley, wheat, or oats, when from 4 to 6 weeks old," says the bulletin. "The grain ration should be increased so as to permit a little change in their rate of growth and fattening as possible. Calves from heavy-milking cows should be weaned gradually. Those from cows not giving much milk should be weaned abruptly. Fall calves should not be weaned until after the cows and calves are on grass. Spring calves should be kept on grass after weaning or be given some succulent food, such as silage."

"In some cases it is advisable to place 'creeps' in pastures where calves are kept so that when the food intended for the fattening calves," the bulletin concluded.

BIG LIQUOR RING COMES TO LIGHT  
(By The Associated Press.)  
CHICAGO, Sept. 27.—Evidence of a widespread liquor ring, operating in Chicago, New York, Pittsburgh and Washington, which deals in counterfeit "imported" liquors to sold to wealthy customers, disclosed today by police and federal officers investigating the shooting of Henry J. Callan.

Officers searching the effects of Leon A. Tarr in a "luxuriously furnished apartment, four letters and records divulging the names of scores of customers and giving details of various deals entered into by the ring. Tarr was accused by Callan, who tonight lay near death from wounds, of shooting him as the result of a dispute involving the division of profits in a liquor deal.

Records of the Illinois prohibition officers were taken on subpoena to the federal building where a grand jury is to go into the reasons for a great distribution of sacramental wine in Chicago by more than a million gallons in excess of the amount consumed in New York city last year.

Two prohibition agents will be requested to testify, it was announced.

TO OPERATE SHIPS  
(By The Associated Press.)  
WASHINGTON, Sept. 27.—The Carolina company of Charleston today was designated by the shipping board to operate the consolidated service from Atlantic ports to the United States Kingdom and continental Europe. The service will be known as the American Palmetto Line.

## Large Wheat Crop In Va. Foreseen

RICHMOND, Va., Sept. 29.—Farmers of Virginia are planning to raise their "bread" at home this winter, so thinks John J. Owen, assistant commissioner of agriculture, who today stated that the acreage of winter wheat in Virginia would be a large one this year.

The short corn crop is mostly responsible for the large increase in acreage that will be devoted to wheat, was Mr. Owen's opinion, and he added that the recent rains have aided farmers in the preparation of ground for seeding.

Virginia has for a number of years produced a good quantity of wheat. In 1922 the production from 838,000 acres was 11,445,000 bushels. The market value of this production was estimated at 12,260,000, according to the State Agricultural Department. This represents a value of \$14.63 per acre in returns.

The 1923 crop was larger than any crop since 1920. Other grains, such as rye, oats and barley, will also be generally planted in Virginia this autumn, said the assistant commissioner. Last year there were planted on 163,000 acres in Virginia a production of 3,586,000 bushels, valued at \$2,250,000 according to the department's estimate.

Rye production was 504,000 bushels from 42,000 acres with an estimated value of \$539,000, while 9,000 acres were planted in barley with a production of 243,000 bushels and estimated value in return of \$194,000.

MILLION GALLONS OF "SACRAMENTAL WINE" SOLD  
(By The Associated Press.)  
CHICAGO, Sept. 27.—Warrants for the arrest of two men, unnamed, at arch-conspirators in what the federal authorities have declared to be a flagrant abuse of the sacramental wine privileges in the hands of United States deputy marshals today.

Records of the Illinois prohibition officers were taken on subpoena to the federal building where a grand jury is to go into the reasons for a great distribution of sacramental wine in Chicago by more than a million gallons in excess of the amount consumed in New York city last year.

Two prohibition agents will be requested to testify, it was announced.

# PROGRESSIVES USE STICKERS ON MONEY NOW

## Road-Show Season Opens October 13

The regular theatrical season at the Majestic theatre will be opened on Monday and Tuesday, October 13th and 14th and will close April 13th, 1925. In all thirteen road-shows, embracing musical comedies, farce comedies, minstrels, spectacles and dramatic presentation of plays which have become famous. The opening show is "The Unwanted Child," a stirring dramatic offering, booked here for two nights, which is regarded as indicating the confidence of the management in its drawing powers.

The full list of attractions booked for the season is as follows:

Monday and Tuesday, October 13 and 14—"The Unwanted Child," a strong drama.

Thursday, October 16—"The Fool," a strong drama.

Monday, October 27th—Frederick V. Rogers in "Love Bel," a musical comedy.

Tuesday, November 4—"Simon Called Peter," a farce-comedy.

Tuesday, November 11th—"Little Jesse James," a musical comedy.

Friday, November 14th—Lasses White's Minstrels.

Monday, November 17—"Seventh Heaven," a dramatic offering.

Tuesday, January 6—Neil O'Brien's Minstrels.

Tuesday, February 24—Al G. Field Minstrels.

Monday and Tuesday, March 23 and 24—"The Thief of Bagdad," a drama.

Monday, April 6—"Meet the Wife," a farce-comedy.

Wednesday and Thursday, April 15 and 16—"Ten Commandments," a Drama.

Wednesday, April 28—"Mitzel in 'The Magic Ring,' a musical spectacle.

Manager M. F. Schner has added to the equipment of the theatre during the interval between seasons a great convenience, particularly for the men. These are wire racks under the seats—all over the house—wherein a man may bestow his hat during the performance, without having to hold it on his knee or put it on the floor and have it trampled or kicked or soiled. These under-seat racks are found in all the leading theatres.

The management will again put into force the instructions that persons arriving late must wait the end of the scene or act before being ushered to seats.

Notices constituting a condition and agreement involved in the sale and acceptance of the tickets by the purchaser will make this plan thoroughly understood by all. It has been found necessary to prevent distractions due to the entrance of tardy entrants, who inconvenience those already seated.

A box-office will be maintained in the theatre vestibule for the advance sale of tickets three days ahead of the show date. Mail orders when accompanied by checks made payable to Majestic Theatre will be promptly filled.

Fraudulent intent must be proved if action is to be taken. But nobody at the treasury department could recall a case where a friendly discussion of the situation and its implications did not result in the immediate cessation of the act.

When honesty comes by, a dollar is anybody's property. One may deface, mutilate, destroy or otherwise more or less despoil and unworthily use it, and the government cannot interfere.

We may turn it into foolish bangles and generally say a word. But the minute the "results" are put into circulation, the treasury department sleuths are on the alert. Anything that changes the character of currency, puts character of currency as far as its free and untrammelled career from its standpoint of its original purpose is concerned.

As in the case of a flag, once very generally employed in advertising promotions and now prohibited by law, the utilization of the national currency or coinage for any but the primary purpose has been authoritatively discouraged by federal authorities. While advertising and public schemes for instances have been recorded of such use in the past few years.

Those accepting the labeled coins may find themselves more or less seriously inconvenienced and various inconveniences are likely to arise all along the line. Treasury officials declare that while labeling coins is not a crime, it is rather a nuisance and something of an offense against the proprieties.

Punched or mutilated coinage or currency is not legal tender and under the cover of any label, such monies might readily be accepted by the public and thus a fraud be perpetrated.

Moreover, neither the United States treasury nor any of its agencies accepts mutilated money for redemption.

The treasury defines as mutilated money "that upon which any name, advertisement or other unauthorized impression has been made; that, to the impression or any other substance is attached; or that which has otherwise been so defaced as to be not readily and clearly identified as to genuineness and denomination."

Under this description the silver dollars being sent out with the LaFollette-Wheeler campaign become "mutilated money" and come under the interested observation of the United States secret service. Charged with the protection of the government against fraud, this federal agency must concern itself with the incidents and accidents likely to give a rise to opportunity for the perpetration of fraud. Upon receipt of information as to the circulation of labeled coins, the treasury is permitted to take the necessary steps in whose jurisdiction the labeled coins are in circulation.

Fraudulent intent must be proved if action is to be taken. But nobody at the treasury department could recall a case where a friendly discussion of the situation and its implications did not result in the immediate cessation of the act.

## "We'll Be Homely Race, Unless—"

Here are five of the beauty types named recently by the eminent biologist Edward Albert Wiggman, author and lecturer, who warns that beauty is on the decline. Center, Katherine MacDonald, (above) Queen Alexandra and Jeritza, the noted singer, (below) Mary Garden and Geraldine Farrar.

By GENE COHEN

NEW YORK, Sept. 29.—Biological or synthetic beauty—which will you have?

Science, which has had the question well stirred in its test tubes, finds present-day society preferring the latter.

In spite of all argument on the subject beauty is rapidly on the decline, biologists find.

There is too much cosmetics and not enough eugenics.

Furthermore they are finding that the combination of "beautiful but dumb" does not hold true in the majority of tests, and that beauty and intelligence are much more likely to be found traveling together. Physical beauty, they discover, is an indication of superiority in mind and soul.

And however they may differ on minor details, the biologists are unanimous on what to do about it.

Modern society must want beauty as the Greeks wanted it in ancient days and must make their marriages accordingly. The handsome man must marry the beautiful woman.

Professor Knight Dunlap, doctor of philosophy and author of "Person of Beauty and Radical Betterment," and many other scientific works finds that beauty is being wasted in scandalous fashion.

"The more beautiful a woman, the greater her chance of a wealthy match," he points out. The beautiful woman too frequently marries social position and wealth and not a mate.

"Beautiful stage girls are practically lost to posterity," continues Prof. Dunlap.

Those carefully selected entertainers are picked for form, beauty, personality and capacity for expression.

"Because they are devoted to stage careers and because of the type of life into which they are thrown these beauties of the stage seldom have children and seldom select good mates," he goes on.

"I have been often criticised for my attitude toward the stage girl.

ful women were bad and so produced a race of plain looking people. The Greeks wanted beauties and had them," he says. And he sees a ray of light in the admiration of the masses for beauty of screen and stage and of the youthful admiration of athletic young men and women. These are good omen.

Wiggman is a great believer in the combination of beauty and intelligence, a theory into which Prof. Frederick Adams Woods, Massachusetts Institute of Technology, has gone deeply.

Havelock Ellis, writer and eugenicist, went into 1053 cases and all findings

showed that the majority of intelligent persons were pleasing to the eye.

Some of the better known women who combine beauty and intelligence charm and talent were named by Dr. Wiggman as follows:

Mary Garden, Jeritza, Queen Alexandra, Katherine MacDonald, Geraldine Farrar, Ethel Barrymore and Irene Castle.

Highway officials were enthusiastic yesterday about the reopening of the turnpike. Knew for years as one highway which Virginia could boast of, the Valley Pike has been started for almost two years by the several detours which new work on the road made necessary. Tourists are now advised that the famous old highway through the historic valley is ready to see them.

Bludge's MITS ARE TIMELY

In Bludge the Washington team has one of the classiest fielding third basemen in captivity. Although Ossie's batting average is nothing to write home about, the youngster has decidedly improved his stickwork during the closing weeks of the campaign. What's more, his hits come when they are most needed.

RICHMOND, Va., Sept. 27.—Richmond manufacturers and shippers who do business in Argentine have been advised by that government that under a new law prevailing in that country all goods shipped from this country to Argentina must bear the "Made in U. S. A." mark in English or Spanish.

Completion of project 1920, a stretch of bituminous macadam 18 miles long between Staunton and Lexington, was announced yesterday by the State Highway Department.

This means that the last of the detours on the famous turnpike has been eliminated and that for the first time in eighteen months Virginia has one splendid, hard-surfaced highway, running almost the length of the State, which is the equal of any in the country.

Elimination of the long and tortuous detour between Staunton and Lexington came just in time to bring Richmond in easy distance of all the big football games between the "big four" in Virginia college athletics. Sport enthusiasts now have an improved road all the way to Lexington.

Entire Valley PIKE NOW OPEN

RICHMOND, Sept. 27.—Virginia's famous Valley Pike is open today all the way from the boundary of Frederick County and West Virginia to Roanoke—a distance of 190 miles. With the exception of four miles of soil road which is being kept in excellent condition the entire distance is hard-surfaced.

RICHMOND, Sept. 27.—Virginia's famous Valley Pike is open today all the way from the boundary of Frederick County and West Virginia to Roanoke—a distance of 190 miles. With the exception of four miles of soil road which is being kept in excellent condition the entire distance is hard-surfaced.

Completion of project 1920, a stretch of bituminous macadam 18 miles long between Staunton and Lexington, was announced yesterday by the State Highway Department.

This means that the last of the detours on the famous turnpike has been eliminated and that for the first time in eighteen months Virginia has one splendid, hard-surfaced highway, running almost the length of the State, which is the equal of any in the country.

Elimination of the long and tortuous detour between Staunton and Lexington came just in time to bring Richmond in easy distance of all the big football games between the "big four" in Virginia college athletics. Sport enthusiasts now have an improved road all the way to Lexington.

Entire Valley PIKE NOW OPEN

RICHMOND, Sept. 27.—Virginia's famous Valley Pike is open today all the way from the boundary of Frederick County and West Virginia to Roanoke—a distance of 190 miles. With the exception of four miles of soil road which is being kept in excellent condition the entire distance is hard-surfaced.

Completion of project 1920, a stretch of bituminous macadam 18 miles long between Staunton and Lexington, was announced yesterday by the State Highway Department.

This means that the last of the detours on the famous turnpike has been eliminated and that for the first time in eighteen months Virginia has one splendid, hard-surfaced highway, running almost the length of the State, which is the equal of any in the country.

Elimination of the long and tortuous detour between Staunton and Lexington came just in time to bring Richmond in easy distance of all the big football games between the "big four" in Virginia college athletics. Sport enthusiasts now have an improved road all the way to Lexington.

# National League Closes Today With Giants Champions

**BOMBERS BUSY**  
(By The Associated Press.)  
TIENTSIN, Sept. 27.—A few persons were killed and many injured today when Manchurian aviators in the army of General Chang Tso-Lin bombed the border town of Shanhai-kwan, where the eastern extremity of the Great Wall is located, near the Chih-Manchurian line, according to messages received here.  
The railway works at Shanhai-kwan point held by the Peking forces of General Wu Pei-Fu, was the target of the aviators. Numerous windows were shattered by the bombs.

**AMERICANS WON MOST OF SERIES**  
NEW YORK, Sept. 27.—American League clubs have been victorious in 12 out of 20 world's series battles with National League rivals since 1903.  
The Boston Red Sox have the best record of all with five triumphs out of as many bids for the premier diamond laurels. The Philadelphia Athletics accounted for three of the other victories of the junior circuit. The Chicago White Sox won twice, Cleveland was triumphant in 1920 and the Yankees last season.  
John McGraw's Giants, with three world's title banners out of eight attempts to carry them off, led the National League list. Frank Chance turned in two triumphs with his old Chicago Cubs, while Cincinnati, Boston and Pittsburgh were each victorious once.

**YESTERDAY'S RESULTS**  
**ROBINS CINCH SECOND PLACE WHEN VANCE WINS**  
BROOKLYN, Sept. 29.—Brooklyn clinched second place in the National league pennant race by winning its final game of the season from the Boston Braves today, 5 to 1. To make the victory certain, Dazzy Vance pitched out of his turn and was invincible, holding the Braves to five hits. It was Vance's twenty-eighth victory this season and added nine strikeouts to his record.

## YESTERDAY'S RESULTS

**TIGERS AND WHITE SOX BATTLE TO 10-10 TIE**  
CHICAGO, Sept. 28.—The Chicago White Sox and Detroit battled ten innings today to a ten to ten tie and darkness forced a suspension of what was expected to be the final game of the season here. The victory would have given the White Sox a chance to tie Boston for seventh place, if Washington should defeat tomorrow.  
Tonight Manager Cobb, of Detroit, asked for a rain game over tomorrow, giving the Sox one more chance to gain at least a tie for last place in the league. Never before have the Sox finished in the cellar.

## Flying Squadron

**Smothers E. & H.**  
LEXINGTON, Va., Sept. 27.—The V. M. I. Flying Squadron defeated Emory and Henry today 39 to 0 in forty minutes of actual playing time. The Cadets confined themselves to straight football, varied by an occasional forward pass, and succeeded in registering eighteen first downs to none for the Wasps.  
In the first half three Cadet quarterbacks took turns calling signals, substitutions were made.  
The first two touchdowns were directly due to fumbles on the part of the visitors. Clements fell on the oval deep in enemy territory, and Foster carried the ball over on a line-buck.  
Cherry Watkins recovered the next Wasp miscue and fell over the line for the second score. Toward the end of the half "Frisky" Harmeling drove through the line for a touchdown after a 25-yard pass from Wintinger to Pillow had been completed.  
The V. M. I. backfield functioned smoothly in the third period, and twice carried the ball down the field. Wyndham White scored after a 13-yard run around end, and shortly afterwards Charlie Foster registered his second touchdown following an 18-yard dash around the flank. Emory and Henry, though putting up a plucky fight, could not advance the ball over the Cadet line. In the closing moments of the game Harmeling followed a series of line-bucks to a fumble over the line for the final counter. The line-up:  
V. M. I. (Pos.) E. and H.  
Watkins ..... Left end

New York ..... 103 000 110—6 13 4  
Hubbell, Couch and Henline; Greenfield, Huntzinger, Baldwin, Maun and Hartley.

## SATURDAY'S RESULTS

NEW YORK, Sept. 27.—The New York Giants broke the precedent of 49 years and won the National league championship for the fourth time in succession, by defeating Philadelphia here today 5 to 1, while Brooklyn was losing to Boston.  
No other National or American league club ever has won four successive pennants. Manager McGraw, of New York was thwarted in his ambition for four straight pennant winners when the Boston club beat out his Giants in a finish ten years ago.  
The championship is McGraw's tenth, twice as many as were won by any other National league manager.  
Bentley found the Phillies easy picking and held the visitors to four hits. A muff by Jackson gave Philadelphia its only run in the first inning.  
The Giants bunched hits on Ring and scored their runs one at a time. Ring was driven out of the box in the sixth inning. Holke was spiked by Terry and was obliged to retire.  
Score by innings: R H E  
Philadelphia ..... 000 000 000—1 4 1  
New York ..... 001 111 01x—5 11 1  
Ring, Carlson and Henline; Wilson; Bentley and Snyder.

## BRVES PUT DODGERS OUT OF PENNANT CONTEST

BROOKLYN, Sept. 27.—The Braves put the Brooklyn Dodgers permanently out of the race for the pennant today by winning a close game 3 to 2. Incidentally also the Boston club broke Bill Doak's string of consecutive victories, which reached ten.  
Cooney held the Dodgers to four hits, one of which was a homer by Brown, first man up in the fifth. Both High and Mitchell had scored on the latter's run tying the score when Stengel threw wild and the ball rolled to the Boston shortstop. The runner was ordered back, however, and Mitchell was passed. The Braves scored all their runs off Doak. McInnis' hitting featured.  
Score by innings: R H E  
Boston ..... 000 010 000—3 12 0  
Brooklyn ..... 000 010 010—2 4 4  
Cooney and O'Neill; Doak, Ehrhardt, Ruether and Taylor.

## REDS EASILY WIN FROM CARDINALS IN FINAL GAME

CINCINNATI, O., Sept. 27.—Cincinnati with a make-shift team in the field, ousted St. Louis pitchers and won the final game at Redland field 10 to 1. Daubert, Roush and Duncan were absent on account of disabilities. The Reds will close the season at St. Louis tomorrow with a double-header.  
Score by innings: R H E  
St. Louis ..... 100 000 000—1 3 3  
Cincinnati ..... 010 510 30x—10 16 1  
P. Fowler, Vines, Berley and Clements; Dittus and Hargrave.

## RICHMOND WINS CLOSE GAME FROM WATERBURY

RICHMOND, Va., Sept. 27.—The Richmond Virginia League champions broke the post season winning streak of the Waterbury Eastern League pennant winners here today when they won the second game of the two game series between the clubs 1 to 0 in eleven innings. Frank Dodson, who reports to the Giants training camp next season, held the conquerors of the Baltimore Orioles to five scattered hits, walked one and struck out five. He forced the Brascos to pop up in order for five innings.

## Virginia Wins It In Final Quarter

(By The Associated Press.)  
CHARLOTTESVILLE, Va., Sept. 27.—After being outplayed for three quarters, the University of Virginia succeeded in the final period in defeating the Hampden-Sidney Tigers by a 13 to 9 score in the opening game of the season here today.  
With the score 9 to 6 against them, the Cavaliers, fighting desperately to avert defeat, opened up an aerial attack. Four forward passes netted them 15 yards and enabled them to carry the ball over for the winning touchdown. They had scored first in the second quarter when Dittie crossed the Hampden-Sidney line.  
The Tigers' points were made in the second period when Richardson's drop-kick went home and in the third when Blankenship scored a touchdown after recovering a blocked punt.  
The score and line-up:  
Virginia Position H. and S.  
Darby ..... L. E. Simmerman  
Hayman ..... L. E. Blankenship  
Mackall ..... L. T. Venable  
Reynolds ..... L. G. A. Dudley  
Cockhill ..... R. G. Sager  
Glauber ..... R. T. Myles  
Abner ..... R. E. Jones  
Dittie ..... Q. B. Atkins  
Manbis ..... L. H. Holliday  
Frost ..... R. H. Squire  
Cuddy ..... F. B. Richardson  
Score by periods:  
Virginia ..... 0 6 0 7—13  
Hampden-Sidney ..... 0 3 6 0—9  
Touchdowns: Dittie, Abner, Blankenship, Field goals: Richardson, Referee, Goech (Virginia). Umpire, Iard (Washington and Lee). Head linesman, Hooper, (Pennsylvania). Quarters 15 minutes.

## Fort Worth Wins Second Game, 11 to 3

FT. WORTH, Texas, Sept. 27.—The Fort Worth team, Texas League champions, today defeated Memphis, Southern Association winners 11 to 3. In the fourth game of the Dixie series for the championship of the south, Memphis had won two of the first three games. The first game of the series was a tie.

## The silent woods are calling

**CALLING** you to play hooky as they did when you were a kid. Remember the old swimming hole, the wild adventures in caves and woods, the thrills of catching your first fish?  
Your nature still wants to play hooky once in a while. It's easy too. Easier than it was in your schooldays. Plan your work ahead so you can take a day off. Hop in the car bright and early. Go off for a day's golf or hunting or better yet take the wife and family along for an outing in the autumn woods.  
Forget your business for just a

few hours. You'll work all the better next day. Your vision will be clearer, your mind keener. Your point of view will be changed. And you will find it restful to get out on the road on a week day when there is less traffic.  
Better run 'round tonight to the nearest "Standard" pump and fill her up with gas, oil, air, and water. Then you'll be ready for an early start and a steady run. "Standard" is just the gas you need on early morning trips like these for there may be a touch of frost in the air. That's when you need peppy gas.

**STANDARD OIL COMPANY**

## RECRUIT HURLER DEFEATS BROWNS BY BIG MARGIN

CLEVELAND, Sept. 27.—Recruit Pitcher Levensen held St. Louis to seven hits and Cleveland won the opening game of the series 12 to 1 today. The Browns only run resulted from singles by Siler and McManus and a wild pitch.  
Score: R H E  
St. Louis ..... 000 000 100—1 7 3  
Cleveland ..... 021 006 03x—12 13 0  
Grant, Winkard and Rego; Levensen and Sewall, (L.).

## DETROIT'S FINAL INNING RALLY BEATS WHITE SOX

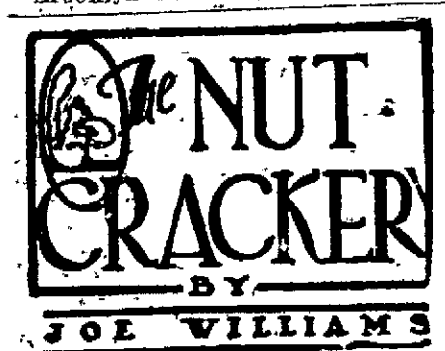

CHICAGO, Sept. 27.—Detroit staged a ninth inning rally after Chicago won the opening game of the series 10 to 3. Woodall and Manush led the attack for the Tigers with four hits each.  
Score: R H E  
Detroit ..... 100 100 105—10 21 2  
Chicago ..... 000 020 402—12 13 2  
Whitehill, Holloway Wells, and Woodall; Thurston, Blankenship and Schalk.

# Yanks Play Two Games Today While Senators Have 1

## YANKS MUST WIN 2 WHILE WASHINGTON DROPS 2 FOR TEAMS TO BECOME TIED

(By The Associated Press.)  
NEW YORK, Sept. 29.—Baseball fans, deprived of their sport of "dodgers" winners in the major leagues by the victory of the Giants and the apparent success of the Senators, have transferred their speculation to these two teams in the coming world series. Both teams are in excellent form. The Yankees, the latter will pursue their slim hope of a tie today. It will be necessary for the champions of the world to defeat Philadelphia twice to win the championship. The Yankees, who lost its two remaining contests with Boston, a tie and a play-off of 3 games would then result. Otherwise, the king will be dead. The problem of picking the winner will be a difficult and worthy climax to a sensational year. Washington, by its aggressive rise to the top of the American League in mid-season and its tenacious grip on the pennant throughout the championship struggle with New York and Detroit, has achieved a reputation as a fighting team. The Giants, however, displayed traditional spirit in rising to the occasion by a crippled team to defeat Pittsburgh and are now relaxing with a recruit lineup in the field to prepare for the coming test against Washington. It is expected that both clubs and Frisch will be ready for the classic.

Brooklyn finished its season yesterday by clinching the second place money in the National League share of the series as Dazzy Vance won his 28th game in a 5 to 1 victory over Boston. Vance added nine strike outs to his record and held the Braves to 3 hits until the ninth when they made two in succession for their only run. Pittsburgh definitely fell to third place when the Cubs drove two home runs in the ninth to tie the game. The Giants with most regulars resting, eased up and lost a 11-6 slugging battle to the Phillies. St. Louis, with doubleheader with Cincinnati winning the first 9 to 3 and then a recruit won his second contest, but losing the next 8 to 2 when a young rookie was hit freely. The Cardinals made 16 hits off Donohue in the first, but Benton held them safe in the night.

### Review of Grid Games Saturday

(By The Associated Press.)  
RICHMOND, Va., Sept. 29.—Nine points scored on the University of Virginia eleven by an unexpected driving power in the Hampden-Sydney machine, together with the five point victory the Cavaliers gained, constituted the only sensation on the gridiron in Virginia Saturday. In all other instances the opening season chalked up the usual tailies for initial and second contests. The weather was anything but football kind, but on the whole, fans did themselves played at the brand of football display. Washington and Lee took an easy opener from Roanoke college 34 to 0 while V. M. I. gave Emory and Henry a 39 to 0 drubbing. It was a second game for the season Saturday before last when Wofford bowed to them 33 to 0. Blacksburg watched V. P. I. administer a 28 to 0 defeat to the University of Richmond. William and Mary drenched the Norfolk firemen under a 47 to 0 deluge. Randolph-Macon and Newport News Apprehension school wallowed through an uncolorful foot period without either eleven tasting a goal. While their elders were losing to the Tech team in Blacksburg, the University of Richmond freshmen eleven let Woodrow Wilson high at Portsmouth take a 12 to 0 victory. Fishburne Military academy and Winchester Handley high battled to a zero result.

### Real Competition In Football Will Be Seen Saturday

(By The Associated Press.)  
NEW YORK, Sept. 29.—With the first contact games out of the way, teams which opened their football season last Saturday graduate to real competition on this week-end when a group of battles indicates the real competitive opening of eastern fields. Pittsburgh and Lafayette meet in the first important elimination of the season. Tale, Harvard, Penn State and Army have inter-sectional contests respectively with North Carolina, Virginia, North Carolina States and St. Louis. Dartmouth and McGill clash at Hanover in an inter-sectional match.

Large crowds at the opening games presaged a healthy interest in the sport despite counter attractions of baseball, racing and golf. The largest of these was the game between Washington and their opponents, Lafayette, West Jefferson, Pittsburg, Lafayette, West Virginia and Rutgers were held to small scores and Buknell, Charlie Morgan's new coaching field, squeezed through with a 6-0 victory over Western Maryland.

### Collie Appointed Collector of Tax

(Special to The Bee.)  
CHATHAM, Va., Sept. 29.—Judge Turner Clement has appointed Magistrate R. C. Collie of this place to collect taxes in the county. Under the appointment Mr. Collie will be authorized to collect by levy or by seizure all persons who have been assessed with poll tax for the past three years and who have not paid it. He expects to begin the collection of the tax on October 1st. Those who are delinquent in such tax will be notified before securing an automobile license, hunting license or other license. In fact any other license the marriage license alone excepted.

### CLASSIC PLAYS OF THE GRIDIRON

BY R. A. COWELL  
Coach, University of Mississippi  
Search yourself up where I was. On the score board, with a wonderful lengthwise view of the football field at Urbana, Ill., below. Illinois and Chicago were engaged in a Western Conference battle before 18,000 frenzied fans, a capacity crowd for that field. For it was the season of 1914 and from the great stadium that now stands Illinois was still 10 years removed from the old field by comparison. The whistle blew for the second half. Chicago kicked the great greatest play I have ever seen on any football field. It was being reeled off. "Pots" Clark, Illinois' great back, received the kick directly in front of the goal posts and inside the five-yard line. He was away like a sprinter. Straight down the field he headed. Ten yards, 20 yards. Well, he didn't stop until he had crossed Chicago's goal line. It was a great bit of running on Clark's part, but the memory that stays most vividly with me is of those other 10 Illinois players who were like Maroon opponents because it seemed to me that the whole flock of potential tacklers converging on the runner were cut down simultaneously.

## Schalk Picks American

Schalk Tells Why He Has Picked the American League to Win the Series

By RAY SCHALK  
amous Catcher, Chicago White Sox  
EGARD JESS of which club wins the pennant in the American League. I figure it has the necessary ingredients to win the world series from its National League rival. If Washington is in the world series, I do not think it will be because of its great defense, good pitching and winning spirit.

If New York wins, the Yankees would capture the series because of their superior batting punch, good defense and much improved pitching. The Yankees staff of September is 35 per cent better than at any other time during the season. Away to a poor start, the staff rounded into shape slowly but finally came with a rush. It is possible for the Yankees to win the series by a different type. There is nothing in common between Washington and New York. The Yankees play for runs in clusters, Washington is content to get them one at a time.

## INTERSECTIONAL HONORS EVEN, FIGURES REVEAL

(By The Associated Press.)  
NEW YORK, Sept. 29.—The eastern and western divisions of the National and American Leagues have treated to their respective sections to wind up the campaign with the intersectional honors divided in a tie. Maryd, as far as divisions are concerned, the western brigade carried off the honors in the National League by a margin of 25 games while the fine work of Washington during the last six weeks enabled the eastern club to come out on top in the junior circuit. The New York Yankees also during the latter weeks played above their previous intersectional strength so that the eastern quartet as a unit finished with an advantage of 26 games.

## BUTLER UNABLE TO GET OUT FOR ANOTHER WEEK IN WASHINGTON

Declines to Say Whether He Will Send "Resignation" Letter Today

(By The Associated Press.)  
PHILADELPHIA, Sept. 29.—Brig. Gen. Smully D. Butler, whose resignation as public safety director has been reported demanded by Mayor Kendrick in a letter prepared a day ago but withheld because of the general's illness, has been ordered to remain at home another day. The mayor declined to confirm or deny reports that he would send the letter to the director's home today. General Butler was unable to come to city hall today. He previously stated that it would not be handed to the director until he returned to his desk.

General Butler's physician declared that should he disobey orders to remain at home it might result in a complete physical breakdown with possibilities of serious consequences. A mass meeting was held to protest against the proposed removal of Director Butler. More than 4,000 tickets have been distributed and the arrangements have been made for an overflow meeting. The meeting was called by the law enforcement league, representatives of which have been summoned to Washington by Attorney General Stone to tell what they know about allegations of political corruption by federal officers in Pennsylvania contained in a telegram sent President Coolidge by William R. Nichols, Jr., secretary of the league. Joseph M. Steele, resigned president of the enforcement league, Saturday because he did not approve of the message. Resolutions urging the retention of Director Butler were adopted yesterday by the congregations of many of the city's churches.

## Reidsville's New School Completed

(Special to The Bee.)  
REIDSVILLE, N. C., Sept. 29.—The new \$50,000 graded school which after the past three months has been under course of construction by C. B. Flora and Son, of Danville, has been completed and within two weeks the equipment will have been installed and used by the pupils. The new school is thoroughly modern and up-to-date, and is the second school building erected here within a year. Last year the community spent \$200,000 on a high school considered the finest in the State of North Carolina. This having accomplished the task of the increased patronage for care of the increased patronage for several years and including a modern cafeteria and a library.

## FOOTBALL QUESTIONS

If You Have Some Question to Ask About Football Write—  
LAWRENCE PERRY,  
Special Football Correspondent of The Bee, 814 World Building, New York

Question. When a player is injured may the trainer come out on the field at will to attend to him?  
Answer. He may not. He must in each instance get permission of the umpire or referee.  
Question. Suppose on a punt two players of a receiving team hold up their hands for a fair catch. Are both entitled to make the fair catch?  
Answer. Yes, they are. Any number are entitled to signal for a fair catch, the provision being that they shall not run after catching the ball.

Question. A player signals for a fair catch, catches the ball and then runs with it for a touchdown. What happens?  
Answer. The score is disallowed and the catcher's team must put the ball in play from a lineup five yards back of the point where the catch was made.

NEW YORK, Sept. 29.—Broadway is being purified. Uniformed evangelists of the law have been assigned to various popular shows to see that naughty words in realistic plays and nude scenes in the living pictures of revues are deleted.

The only effect of this annual gesture, it seems, is to make more popular the shows under fire. One of the first plays picked upon is a war story. The police objected to some of the words placed in the mouths of the soldier actors while on trench duty. The censor appeared the next day and appeared the next day. The censor appeared the next day.

Paradoxical as it may sound, the ugliest and shortest block in New York can boast of more beautiful girls than any other single thoroughfare in the metropolis. Thirty-seventh street, between Broadway and Seventh avenue, is just a hop, skip and a jump in length. But on it are crowded a score of cloak and suit houses by women of the nation. And at lunch time from these buildings there pours a dazzling time of femininity. It is the time when the professional beauties, the models go out to eat soup and other with beauty.

No charges were brought against Mr. Gannon in the hearing and the city manager did not appear to defend himself but was represented by counsel. Mr. Keller will take office November 1. The council announced that the change was due to the necessity of employing a "trained engineer" as city manager. The hearing was marked by a stormy debate between those favoring the retention of Mr. Gannon and those advocating a change.

## BRISTOL DISCHARGES HER CITY MANAGER

(By The Associated Press.)  
BRISTOL, Va., Sept. 27.—In a public hearing held in the Bristol Virginia courthouse today, James Gannon was discharged as city manager and John D. Keller, Jr., elected to succeed him. No charges were brought against Mr. Gannon in the hearing and the city manager did not appear to defend himself but was represented by counsel. Mr. Keller will take office November 1. The council announced that the change was due to the necessity of employing a "trained engineer" as city manager. The hearing was marked by a stormy debate between those favoring the retention of Mr. Gannon and those advocating a change.

## RUTH CHOICE FOR Billy Evans' Dope On Series RIGHT FIELD JOB

RICE, WASHINGTON.—Bats left, throws right handed. One of the fastest men in the American League. Fine fielder, good baserunner and dangerous batsman. Is hitting well over .300. A veteran who has played high-class consistent baseball throughout his career.

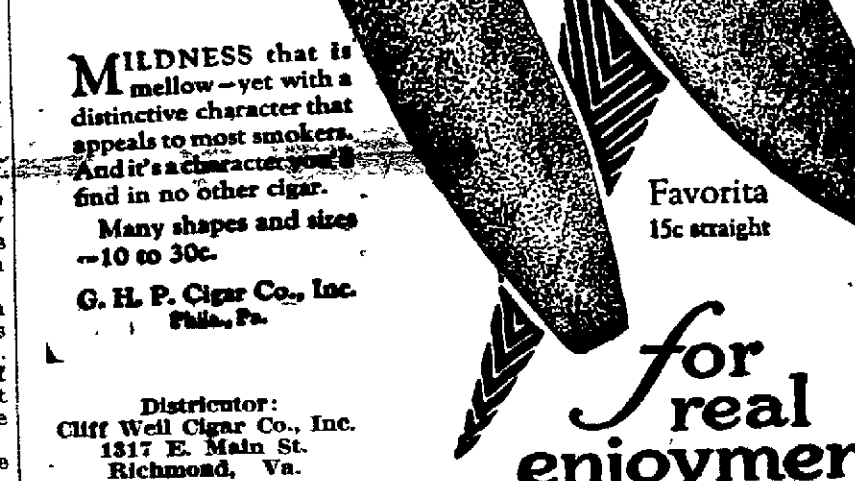

RUTH, NEW YORK.—Bats and throws left-handed. Is having another big year, starting in all departments of play. Has fine chance to lead American League in batting. His great work has been the chief factor in keeping the slipping Yanks in the race. He's a wonder.

YOUNG, NEW YORK.—Bats left, throws right-handed. A remarkable ball player who excels in all departments. Is one of the brainiest men in the game. Has a great throwing arm. Enjoying a big year at the plate. His fine work has been a great help to the Giants. Team's spark plug.

GRIFFITH, BROOKLYN.—Bats left, throws right-handed. His value to his team is not truthfully told by the averages. Usually hits around the .300 mark but this year has slumped about 80 points in his average. Is a veteran, coming to National in 1913. Has played with three clubs during that time.

RATING.—There is plenty of class among the contending right fielders. Ruth, having the greatest year of his career, must be given the edge. There is little to choose between Young and Rice, both being brilliant former players. Moore, Pittsburgh recruit, has performed in remarkable style at the bat. Didn't break into the lineup regularly until late in season. Just couldn't keep him out because of his hitting.

Miss Clara Ludlow, Entomologist, Dies  
(By The Associated Press.)  
WASHINGTON, Sept. 29.—Miss Clara S. Ludlow, whose work as an entomologist in the study of disease-bearing mosquitoes has distinguished her in that field of science, died here yesterday at the age of 70 years. Many new species of such mosquitoes were discovered by Miss Ludlow, who was connected with the army medical museum at the time of her death and whose work is said to have been an important contribution to the disease-prevention activities of the army.

## LEGAL NOTICES

## ORDER PUBLICATION

VIRGINIA.—In the Clerk's Office of the Corporation Court of Danville, on the 18th day of September, 1924. Bettle W. Holland ..... Plaintiff against C. E. Holland's Adm. & Als. Defendants

## IN CHANCERY

The object of this suit is to establish and have the Court declare an implied or resulting trust in certain lots of land with improvements thereon, fronting 50 feet on Stokes street and extending back therefrom between parallel lines 150 feet to an alley, which was conveyed to C. E. Holland from E. F. Burnette and wife dated January 25, 1915, and recorded in the Clerk's Office of the Corporation Court of Danville, Virginia, in Deed Book 83, page 256, in favor of the complainant, and to have the legal title to said property conveyed to the plaintiff, and for general relief.

An affidavit having been made and duly filed that Clennie E. Holland and Mamie Elizabeth, co-defendants in the above-styled case, are non-residents of the State of Virginia, it is therefore ordered that they do appear here within ten days after due publication of this order once-a-week for four successive weeks in The Bee, a newspaper published in the City of Danville, Virginia, and do what is necessary to protect their interest in this suit.

A Copy—Teste: OTIS BRADLEY, Clerk. Harris & Harvey, F. C. 29bmo4

## ORDER PUBLICATION

Issued by order of the Clerk of the Corporation Court of Danville, entered on the 27th day of September, 1924. VIRGINIA.—In the Clerk's Office of the Corporation Court of Danville, on the 27th day of September, 1924. Major Carter ..... Plaintiff against Elizabeth Lee Carter ..... Defendant

## IN CHANCERY

The object of this suit is to obtain from the said Court a decree divorcing the plaintiff, Major Carter, from the defendant, Elizabeth Lee Carter, on the grounds of adultery.

An affidavit having been made and duly filed that the said defendant, Elizabeth Lee Carter, is a non-resident of the State of Virginia, it is therefore ordered that she do appear here within ten days after due publication of this order once a week for four successive weeks in The City of Danville, Virginia, and do what is necessary to protect her interest in this suit.

A Copy—Teste: OTIS BRADLEY, Clerk. Carter & Williams, F. C. 29b-mo4

## SMUGGLED SUPPLIES

(By The Associated Press.) BUCHAREST, Roumania, Sept. 27.—The discovery of a large supply of arms and ammunition in Bessarabia today in connection with its official inquiry into the recent Bolshevik raids into Rumanian territory.

These supplies were said to have been smuggled in by the Bolsheviks to further a communist scheme to incite the inhabitants between the Dniester and Pruth rivers to declare an independent Moldavian republic under "the benevolent protection" of German colonists in Southern Bessarabia aided the Rumanian troops in scattering the raiders.

## DIRIGIBLE TO SAIL OCT. 2

HARTFORD, Conn., Sept. 27.—The American radio league, which is making plans to keep navy officials and the public in contact with the dirigible Shenandoah on its flight across the continent and return, was advised today that the airship would leave Lake Hurst, N. J., October 2 for Seattle by way of Fort Worth Texas and San Diego, California.

## HOTEL DEL MONTE

## DESTROYED BY FIRE

DEL MONTE, Calif., Sept. 27.—The Hotel Del Monte, center of a playground known internationally to tourists and sportsmen for its beauty and golf links, was destroyed by fire of undetermined origin which started in a tower in the building this morning. No lives were lost.

The fire alarm sent the six hundred guests scurrying for the building in scanty attire to witness the destruction of the main structure valued at approximately \$1,000,000, by C. S. Stanley, the manager.

Art treasures valued at \$75,000 were saved by townspeople.

### MORNING STOCK LETTER.

(Thomson & McKinnon.)  
NEW YORK, Sept. 29.—If the relationship between business and the stock market is as close as we all think it is, then the stock market is in a mighty sound position because business is growing and you don't have to take the view of any individual or agency for this but just look at facts. Take railroad traffic and clearings through the banks. People don't write checks for amusement and don't ship carloads of freight for exercise and both sets of figures show a healthy and expanding business condition in the country. If we can have such a situation in the month of September what will it be from November on when the people will be sure of four years more of conservative government? We have just the sort of condition to invite buying on all little reactions.

### MORNING COTTON LETTER.

(Thomson & McKinnon.)  
NEW YORK, Sept. 29.—Manchester trade advices are good. New Bedford reports much buying interests throughout New England in manufacturing districts but buyers and sellers still apart. Talk of more cotton coming here for tender on October on heavy selling of southwest on Saturday. Advance has been over and short interest practically eliminated and market more vulnerable to selling. Advise caution for present on buying but purchases advisable on good reactions.

### CHIROPRACTIC AND DIAGNOSIS

Question—"I have stomach trouble, headaches, constipation, loss of appetite, insomnia, palpitation of the heart, dizziness, nausea and vomiting, and a general loss of strength. What is your diagnosis of my trouble?"

ANSWER—Are you interested in having your sickness cured, or do you want to know what can be done to get you well? If it is a name you want, we are not interested in your case. Chiropactors do not diagnose. It isn't necessary to name your disease to get well. In place of diagnosis, we employ Spinal Analysis. If we were to go down that spine of yours, we would find inflammation and nerve tenderness in the dorsal region where the nerves leave on their way to the stomach. We would also find a diseased and superficial muscles adjacent to the vertebrae responsible for the nerve pressure. In other words, we would find the true CAUSE of the symptoms you present. Regardless of what name might be applied to your case, we know that proper Adjustments will correct the CAUSE, and that means health. We urge you to—

Have Your Spine Adjusted

### Everyman's Investments

By GEORGE T. HUGHES

#### EVERYMAN'S INVESTMENTS. 28 SEVENTY-SIXTH ARTICLE.

"Ex-Dividend"

A woman wrote me the other day complaining that she had failed to receive the extra dividend due on a certain stock of which she was the holder. She explained that in the tables of stock prices on the financial page she had read that her shares were selling "ex-dividend" but that so far this additional disbursement had failed to arrive. Possibly there may be other people as ill-informed. Of course what had happened was that her stock was quoted that particular day as selling without the dividend which had gone with the purchase of the shares on the preceding day. The "ex" meant minus the dividend, not an extra dividend. This brings up the important distinction between the methods of trading in stocks and in bonds. The dividend on a stock belongs to the purchaser who buys just before it sells "ex." Generally the market price allows for the declining proportionately when the dividend comes off the quotation. Bonds, however, sell on an entirely different basis. Purchasers must pay in addition to the quoted figure the amount of interest due since the date of the last coupon. In the same way sellers receive the interest accrued up to the date of the sale. It follows that there is no loss of interest in selling bonds between coupon paying dates nor is there any gain from buying them just before the coupon is due.

You may have seen in the advertisement offering new bond issues that the price is stated at a certain amount "and interest." This is the same rule except in the case of bonds in default which sell "flat" as the expression is and in the case of income bonds. The last-named are securities on which payments are contingent upon earnings. These sell on the same basis as stocks.

(Mr. Hughes' seventy-seventh article will appear in The Bee next Wednesday.)

#### NEW YORK STOCKS.

(By The Associated Press.)  
NEW YORK, Sept. 29.—A firm undertone prevailed to the stock market as trading was resumed today, with buying orders well distributed over the general list. Initial prices, however, showed only slight changes. Demand for Atchafalaya sent that stock up to 107 1/2, duplicating its year's high record. General Electric moved fractionally lower.

Representative industrials varied little from last week's closing prices, but active specialties and lower priced rails advanced smartly to new high levels for the year. Gains of one to 1 1/4 points were recorded by Chicago and Alton preferred, Erie preferred, National Biscuit, Chicago and Great Western preferred and Consolidated Gas of Baltimore. The latter two achieving 1924 peak prices. Chandler and Maxwell "A" were in the forefront of an upward movement in the motor group. Sifted heavy spots included Gulf States Steel, White Motor and Barnsdall "A". Foreign exchanges were firm in quiet trading.

RUMANIA DISCOURAGES GOATS  
SOFIA, Sept. 27.—The sheep and goat census for the current year shows that there is a pair of sheep, or a sheep and a goat for every man, woman and child in Rumania, with a part of a sheep or a goat to spare. Sheep, however, are much preferred to goats by the Bulgarian government. The reason is that goats, feeding on the fresh young tops of shrubs and small trees, apparently are eating the country bare of forests. Hence steps are being taken to discourage their increase.

### Doing Their Daily Dozen

A New York hotel hired a well-known national detective agency to search its waiters daily for liquor before the mingo on duty. This was done following a recent raid on the hotel, when it was alleged a prohibition agent bought liquor from a waiter. Now the hotel will take no chances.

### SEARCH FOR BODIES OF 28 MEN ON WRECKED SHIP

(By The Associated Press.)  
CLEVELAND, O., Sept. 29.—With the recovery of wreckage from the whaleback freighter Clifton and sighting of more, efforts today were concentrated on the recovery of bodies of 28 men officers and crew of the ill-fated vessel. Search is centered on the Canadian shore, where it is believed the bodies, none of which had been recovered early today, will be carried.

Richard A. Harrison, traveling commissioner for the Lake Carriers' Association, is due in Goderich, Canada, this morning, to direct the search.

Reports that wreckage had been found were received by A. E. Sheld-

er, general manager of the Progress Steamship company, Cleveland, owners of the Clifton, last night. A forward end of a pilot house and broken hatch covers picked up about 70 miles from Goderich, on the Detroit-Goderich course, by Captain Dalton Hudson, of the steamer Glenearn Saturday, were parts of the Clifton.

Other wreckage was sighted by the captain of the A. C. Minch, 14 miles southwest of Thunderbay and by the tug Falcon, 35 miles southeast by east of Alpena, Michigan, they reported.

The steamer Fontana, passing down from Mackinac, was ordered to search the vicinity of Alpena for bodies.

NEW YORK COTTON.

(By The Associated Press.)  
NEW YORK, Sept. 29.—The cotton market opened today at a decline of 2 to 11 points under selling which was encouraged by rather easier Liverpool cables and the failure of the weather news to show any frost in the southwest. Further rains were reported in eastern belt sections, however, accompanied by reports that cotton was sprouting in the bolls and the market soon turned firmer on buying by sellers of last week and covering.

December sold up from 24.35 to 24.70 in the first half hour, the general list showing net advances of 14 to 25 points.

Private cables attributed the decline in Liverpool to reselling by bulls and hedging but that offerings had been absorbed by spinners callings.

October ..... 25.30  
December ..... 24.40  
January ..... 24.48  
March ..... 24.75

DISARMAMENT COMMISSION OF LEAGUE OF NATIONS MEETS

(By The Associated Press.)  
GENEVA, Sept. 27.—The disarmament commission of the league of nations assembly tonight adopted the Benes report on the draft protocol arbitration and security.

The commission decided that the world-wide disarmament conference be held June 15, 1925, if by May 1 a majority of the states represented in the league council and ten others shall have ratified the protocol.

The Japanese objections to the arbitration clauses go over, until the Sunday morning session of the judicial committee. There is little hope that Japan's position will be changed, according to the impression conveyed.

NEW ORLEANS COTTON.

(By The Associated Press.)  
NEW ORLEANS, Sept. 29.—The cotton market opened lower in sympathy with lower Liverpool than due. The first trade in October showed a decline of 41 points but later positions showed initial losses of 10 to 20 points.

The market firmed up as the call proceeded, and immediately after the call October rose as high as 24.50; December at 24.62 and January at 24.64 or 9 points net higher than Saturday's close and 22 to 23 points net higher on later positions.

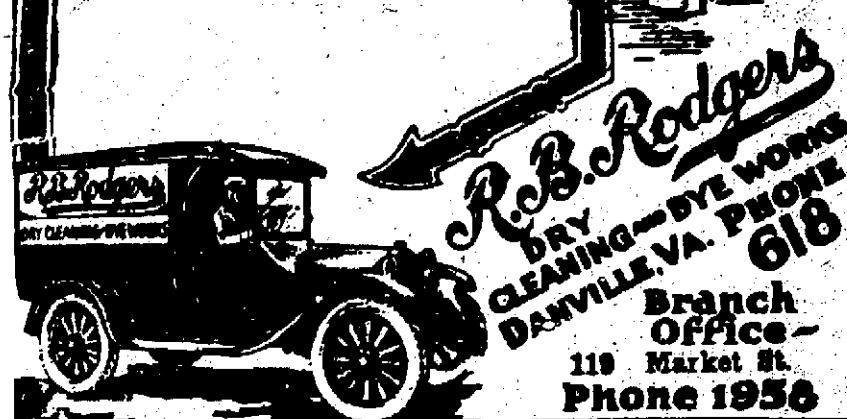

The map showed general rains in the eastern belt but dry in the central and western portions. Temperatures were generally low but no frost was reported.

October ..... 24.00  
December ..... 24.10  
January ..... 42.22  
March ..... 24.49  
May ..... 24.61

Average price twenty industrials 103.22, off .05; twenty rails 90.35; up .20; forty ybonds \$1.01, up .08.
